11/08/2025

Dear Team **8001_meh**,

As the Unit Convenor of BUSA8001 Applied Predictive Analytics, I would like to extend my warmest congratulations to your team for securing first place in the ASBA Predictive Analytics Kaggle Competition "Predicting Airbnb Listing Prices in Melbourne, Australia" during Semester 1, 2025.

Your achievement reflects the strong technical capability, creative problem solving, and collaborative teamwork you demonstrated throughout the competition. Accurately modelling complex datasets and delivering high quality predictions is no small task, and your success is a reflection of the skills and dedication you have developed in this unit.

We proudly recognise the following team members for their accomplishment:

- Merlyn Febriany
- Eveline Setiawan
- Ngoc Bao Han Tran

It has been a pleasure to see your learning and application of predictive analytics techniques translate into such an outstanding result. I encourage you to continue honing these skills as they will serve you well in both your academic and professional careers.

Once again, congratulations on this impressive achievement.

Kind regards,

Associate Professor George Milunovich
